PROPLUS DATA
PROSPECT INTELLIGENCE

No model, no machine, no algorithm can perform without the right data behind it. From strategy to execution, it's data that determines whether AI is just a buzzword—or a business advantage. The difference between potential and performance? Data that's accurate, available, and aligned with business goals.

NO DATA NO AI

PROPLUS DATA
PROSPECT INTELLIGENCE

87% OF ACCOUNTS WON'T CONVERT. **PROPLUS 'DATA'** HELPS YOU DISCOVER THE REST 13%

At **ProPlus Data**, we believe , data isn't just an asset, it's the foundation of every intelligent decision, predictive model, and strategic transformation.

In a world where AI and analytics define competitive advantage, the true differentiator is not algorithms, but the accuracy, integrity, and alignment of the data that feeds them.

This playbook explores how we empower forward-thinking organizations with data of unparalleled precision, coherence, and rigor.

PROPLUS DATA
PROSPECT INTELLIGENCE

ARE YOU DATA-READY FOR **ABM | GTM?**

& perhaps for an AI Supporting it...

Is your data accurate, unified, and aligned with strategic business goals?

Which tech do your target accounts use or plan to buy next?

Which of your accounts are due for renewal or at churn risk?

Who are the right, verified buyers groups to engage with?

What messaging resonates with your buyer personas?

Every question you just asked,

We've a solution for it!

PROPLUS DATA

THE INTELLIGENCE SUITE

Intelligence isn't a byproduct of data—it's the result of how data is structured, surfaced, and activated. ProPlus Data's solutions are crafted to empower every move with **context, confidence, and commercial impact.**

NEXT TECH PURCHASE®

A GLOBAL FIRST IN PREDICTIVE TECH BUYING INTELLIGENCE !

ProPlus Data's proprietary Next Tech Purchase® (NTP) stands as the world's only solution that forecasts upcoming technology investments at the account level.
Leveraging refreshed (45-60 days) signals and razor-sharp technographic insights, Next Tech Purchase® puts businesses in front of high-potential accounts before competitors even know they're in play.

WHY NTP® IS A GAME-CHANGER

LEAVERAGES TECHNOGRAPHICS AND INTENT DATA TO PINPOINT TECH ADOPTION TRENDS– DRIVING RELEVANT, WELL-TIMED ENGAGEMENT.

ENGAGE ONLY WITH IN-MARKET ACCOUNTS– CAREFULLY SELECTED THROUGH DATA-DRIVEN INTELLIGENCE TO IDENTIFY THOSE ACTIVELY PLANNING NEW TECHNOLOGY INVESTMENTS.

REAL-WORLD IMPACT

Accelerated Sales Cycles
Engaging prospects at the right time shortens the sales journey.

Higher Conversion Rates
Targeted outreach improves lead-to-customer ratios.

Stronger Market Positioning
Addressing emerging needs early positions brands as leaders.

Next Tech Purchase® flips the script on traditional outreach. Instead of waiting for prospects to show intent, it tells you who's gearing up to buy—before even they raise a hand. It's not just smarter targeting; it's strategic timing.

PROPLUS DATA
PROSPECT INTELLIGENCE

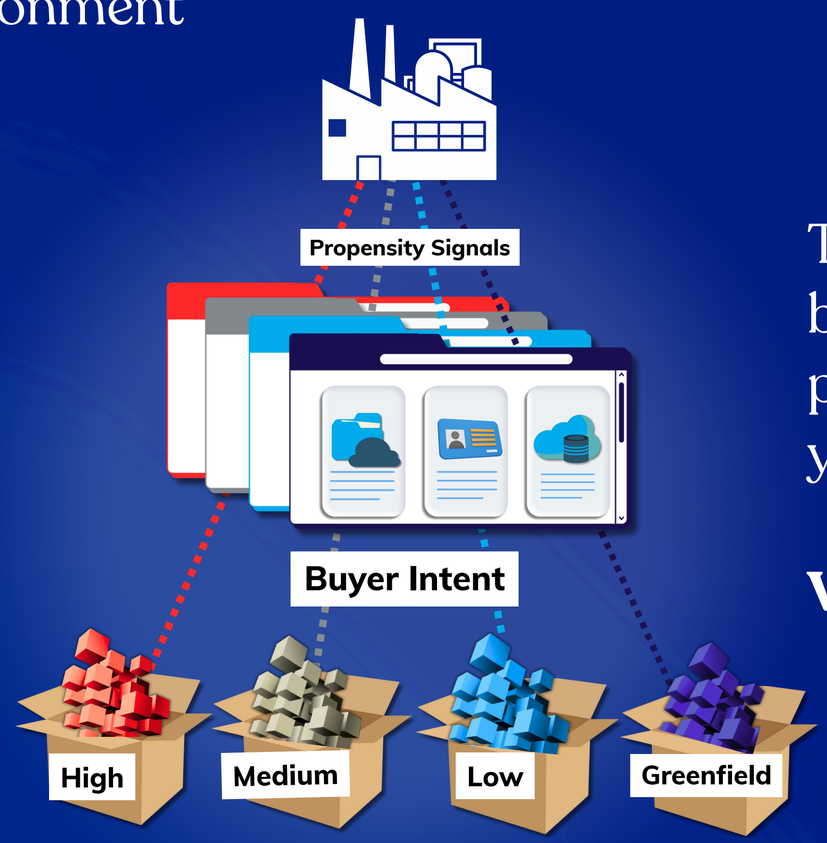

• Technographics

Gain deep visibility into the tech stacks of target accounts—CRM, cloud, cybersecurity, marketing tools, and more.

By mapping technology usage, you can:

- Identify cross-sell and displacement opportunities
- Prioritize accounts using outdated or competing tools
- Tailor messaging to fit each account's tech environment

• Intent Data

Track digital signals—content views, research behavior, & engagement patterns to identify and prioritize accounts actively exploring solutions like yours.

Why It Matters:

- Focus only on accounts showing real interest
- Align outreach to buying stage
- Boost ROI by prioritizing high-intent prospects

• Renewal & Subscription

This tracks renewal cycles, purchase anniversaries, and tech stack shifts—so you engage when accounts are primed for decisions.

Use It To:

- Align GTM efforts with renewal timelines
- Capture opportunities during buying windows
- Reduce churn and drive timely upsell engagemen

• Contact Data

Access accurate, GDPR-compliant B2B contact details—direct dials, mobiles, and verified emails of key buyer groups

Key Advantages:

- Direct access to the right stakeholders
- Voice-verified, intent-backed profiles
- Improved accuracy for higher connect rates and ROI

PROPLUS DATA
PROSPECT INTELLIGENCE

• MQL & Voice Verified Leads

Delivering pre-qualified, intent-rich leads aligned to your ICP—vetted through content engagement, behavioral signals, and voice verification where needed.

What You Get:

- Warm leads with active buying intent
- Verified contacts enriched with context
- Faster, smoother handoff from marketing to sales

• Buyer Persona Insights

Gain deep, role-specific intelligence on buying behavior, pain points, and content preferences—mapped to your ICP.

Benefits:

- Persona-based, precision targeting
- Messaging that speaks to real needs
- Stronger sales and marketing alignment

• Event Audience Acquisition

Leverage technographics, intent data, and persona insights to identify and engage decision-makers most likely to convert—boosting event turnout and ROI.

Key Outcomes:

- Drive attendance from high-fit accounts
- Engage targeted personas with tailored messaging
- Increase post-event conversion rates

USE CASES

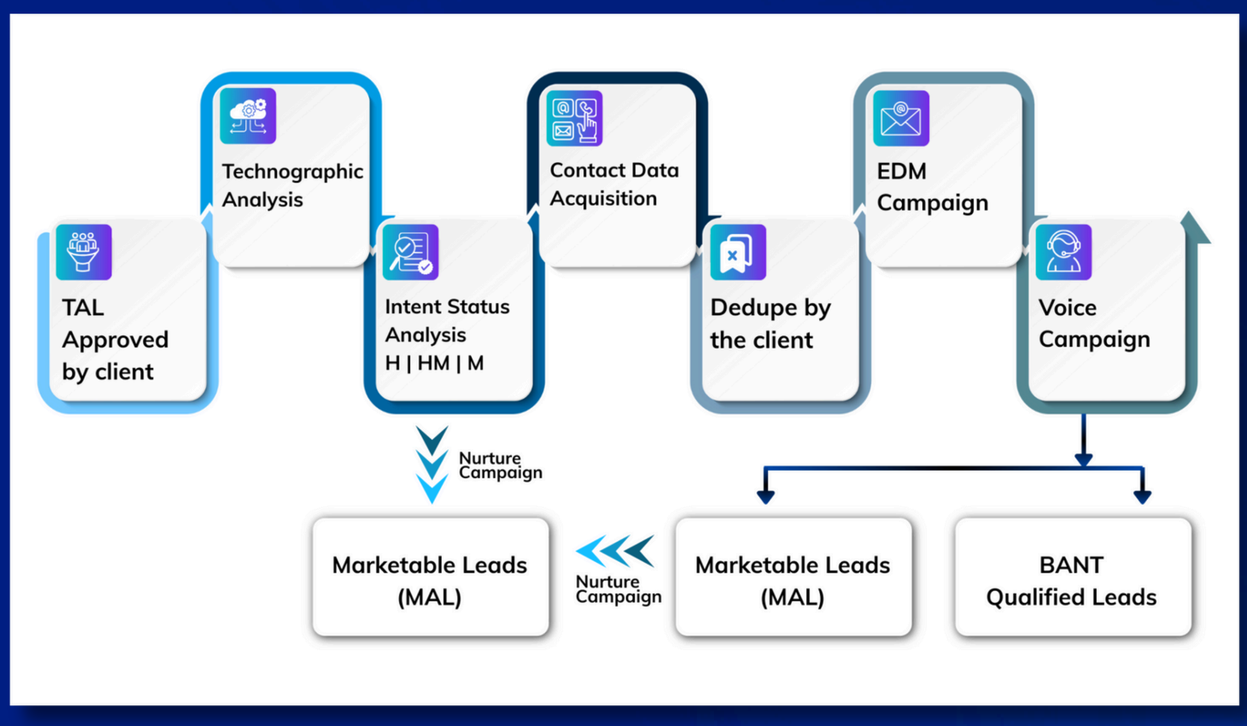

ACCELERATING CLOUD DEMAND FOR A GLOBAL CLOUD PROVIDER

Objective

Accelerate lead generation and conversion within six months across diverse markets across India, ANZ, and ASEAN.

Challenge

- Fragmented mid-market with mixed cloud maturity.
- Legacy vendor lock-ins and low conversion from generic outreach.

ProPlus Data Strategy

- Enriched account universe using **Technographics, Intent Data, Contact Data and MQL & Voice Verified Leads.**
- Built opportunity heatmaps (High, HM, Medium) to prioritize outreach.

Key Outcomes

- Campaign delivered in half the expected time (3 months vs. 6).
- India: 14,315 contacts reached, high engagement on innovation.
- ANZ/ASEAN: Higher-quality engagement, analytics-focused.
- Pipeline fully primed for ongoing sales conversions.

APAC CX TRANSFORMATION FOR LEADING GLOBAL CLOUD CX SOLUTION PROVIDER

Objective

Drive AI-powered CX transformation across diverse APAC markets.

Challenges

- Identifying high-propensity accounts in a fragmented, underpenetrated market.
- Navigating region-specific complexities and language diversity.
- Underestimation of AI's CX impact in APAC.

ProPlus Data Strategy

- Analyzed 32 technographic categories, narrowed down to 9 key focus areas.
- Leveraged advanced intent signal identification to target active solution seekers.
- Validated decision-making job titles for high-impact outreach.
- Created personalized, multi-touch EDM campaigns aligned with pain points.

Key Outcomes

- 250+ leads, including 30+ high-propensity accounts
- Higher conversions with optimized resource use
- Stronger market position for sustained growth
